EDUCATION

CHANDIGARH UNIVERSITY

B.E. IN COMPUTER SCIENCE & ENGINEERING

July 2018 - Present

CGPA 7.50/10.0(Till 6th Sem.)

DELHI PUBLIC

SCHOOL GHAZIABAD

May 2018 | XII - 89.8%

INGRAHAM INSTITUTE

May 2016 | X - 90%

SKILLS

PROGRAMMING

C++ • Java • Python • C

FRAMEWORK/TOOLS

Node-JS • Express-JS • REST-API

Android Studio • Git • Firebase

• JsonWebTokens

DATABASES

MySQL • MongoDB • Firebase

Realtime Database

COURSEWORK

UNDERGRADUATE

Algorithm Design And Analysis

Theory Of Computation

Advanced Java

Object Oriented Programming

(With C++)

Operating Systems

Database Management System

EXPERIENCE

ODESSA TECHNOLOGIES |SDE Intern (Apr'21-Present)

- Learnt C#, MS-SQL, XAML, LINQ, Odessa LW-Framework along-with highest score in LINQ and SQL Internal Assessments.

- Resolved multiple product/project level bugs within the Odessa core along with a few SQL queries for the report builder.

PROJECTS

STORIES |Project |Source Code

- Designed and developed a **Node-JS, Express-JS & Mongo-DB** backed webapp.

- Made use of **HBS Template Engine** to build interactive UI.

- Used **Google-OAuth** to generate and validate access as well as refresh tokens with seamless express middlewares.

CONSUMER ADDA |Source Code

- A consumer case registration app with a **Node-JS, Express-JS & Mongo-DB back-end** and an **Android(Kotlin)** client and admin app.

- The client app facilitates case submission and case acceptance by client and lawyer respectively.

- Provided location selection feature for lawyers.

- Integrated in-app chat feature using **Firebase Realtime Database** to allow smooth communication between clients and lawyers

- Made a separate **Admin App** to perform moderation and managing reports of unresponsive lawyers.

BRIDGE |Project Back-End|Source Code

- An app built for a social cause particularly for students of lower financial backgrounds.

- We built robust **Flask, Postgres** back-end along with **Android, IOS** client app.

- Designed database schema, in-app chat feature with media sharing using **Firebase Realtime Database, Firebase Storage**

ACHIEVEMENTS

2019 Subject Topper Data Structures (**3rd Semester**)

2020 87/25k+ participants CodeChef June Challenge – Div.2

2020 880/17k+ participants CodeForces Round - 640

2020 4-Successful PR in Hacktoberfest DSA Repositories

2021 Solved 1400+ problems on various online judges

CERIFICATIONS

2020 Problem Solving - Intermediate (Verify)

2020 Algorithmic Toolbox(91.24%) (Verify)

2020 Algorithms on Graph(83.33%) (Verify)
